We are an Operation Encompass School

Monday 27th April 2020

Dear Parents/Guardians,

During this extremely difficult situation we feel it is more important than ever to maintain social contact (even if this isn't face to face!) as it is beneficial for mental health, wellbeing and social skills. Although it is a strange time for us all and we haven't been able to see you or the children as often as we would all like to.

A lot of people have already been in touch and have been posting on Twitter. Thank you and please keep doing this. We are missing the children a lot and we love seeing the photos and videos. Alternatively, if you would prefer us to upload items for you then please email us at this address: socialmedia@stcuthbertsprimaryschool.co.uk. Maybe you've enjoyed a family walk, learned how to plant seeds, tried a new recipe, made a rainbow for your window - anything at all let us know!

Ideally, we would love to have a weekly update video which I will create and post on Twitter collating all of the memories we have all made during this strange time. It will be lovely for all the children to be able to share what they are doing and also see what their friends have been up to.

GDPR guidelines will remain in place for the use of social media and we will not post any personal details e.g. name/age of children we will just collate the information you send us and hide any personal details.

We hope you are able to get in touch with us.

Stay Safe,

Miss A Hardy
